TREND OF TRADE.

R. G. Dun & Co.'s Week Review of Business Conditions.

THE SUDDEN ADVANCE IN WHEAT

Will Affect All Interests, if It Is Due to the Injury of Crops by Snows and Frosts—Reports Probably Exaggerated—The Iron Industry Distinctly Gains—The Business Failures for the Week.

New York, May 24.—R. G. Dun & Company's weekly review of trade, which issues to-morrow, will say:

If wheat has been so greatly injured by the snows and frosts in May that the sudden rise of 12 cents in two weeks is justified, the calamity will affect all business prospects. The markets do not believe it, for stocks do not collapse. Iron, leather and hides still rise and no holders of wheat would sell at 80 cents, a lower price than had been known at this season for thirty years prior to 1893, if current reports were credited. Some injury has undoubtedly been sustained but our own dispatches do not show that it is really serious. The temper is to buy, regardless of visible requirements, in the faith that prices are sure to rise. Western receipts of wheat for three weeks have been larger than last year in spite of storms and frosts. But the rise has practically stopped buying for export as the similar rise did in April, 1884, which was followed by about the lowest price then ever known. Whether grain has been greatly injured or not, foreign markets will take early occasion to fortify themselves from other sources. The week's sales here have amounted to 155,000,000 bushels, and accounts of damage by frost and by insects are so mixed up that some traders infer that the price must wear overcoats. Corn rose 3½c during the week, though much of the corn killed may be replanted; pork rose 50c per barrel; lard 5c per 100 pounds and oats 2c.

The iron industry distinctly gains, and the improvement is no longer confined to prices of materials. Better wages at and west of Pittsburgh convince buyers that prices must rise, and there have been larger sales of finished products with about \$1 per ton better prices for structural forms and steel bars, while Bessemer pig has risen to \$11.50 at Pittsburgh. The Thomas company has advanced its anthracite pig 50 cents and higher freights made Southern cost more at the east. Sales of rails to May 1 were 420,000 tons, and deliveries 250,000, both larger than last year. Nail works are combining and a coke pool is expected to raise prices soon. Pittsburgh bank note withdrawals for rolls in the past month of \$2,383,397 against \$1,865,518 last year by the same works.

Purchases of dry goods in the belief that prices must rise have kept textile mills fairly busy, but the demand for cottons seem slackener on the whole, and print cloths are a sixteenth weaker.

Failures this week have been 207 in the United States, against 182 last year and 23 in Canada, against 28 last year.

MINERS' STRIKE DEAD.

The Men Will Go Back to Work at the Operators' Terms.

Pittsburgh, May 24.—The miners of this district have practically given up the strike for 60 cents per ton, and will go back to work at the operators' terms of 60 cents. The miners have been fighting for a lost cause for some time, but this morning when Col. W. P. Hend, the Chicago operator, arrived in town from Philadelphia with fifty men to go to work in his mines, the officials of the union recognized that the fight was lost. Colonel Hend had held a conference with his men, and gave them until Wednesday to go back to work at the 60-cent rate. They did not return, and to-day he brought in fifty non-union men from the east, and says he will bring more if his old miners do not come back soon.

The strike will not be declared off, but will be allowed to die a natural death and the strikers will try to get their old places back. This is upon the statement of some of the district officials. The fight will be kept up, however, against the New York & Cleveland Coal Company and the Pittsburgh & Chicago Gas Coal company, who have their men under contract for eight months at from 45 to 60 cents per ton. All the mines on the Panhandle railroad and resumed to-day and a general resumption is expected next week.

THE QUEEN'S BIRTHDAY

Celebrated in the Usual Manner—Will Continue To-day.

London, May 24.—The seventy-sixth birthday of Queen Victoria was observed to-day at all the naval and military stations with the exception of the city by the usual display of flags, trooping of the colors, etc. In London the celebration of her majesty's birthday will be observed to-morrow, with the trooping of the colors at Whitehall, ministerial dinners, etc. Hon. Henry Fowler, secretary of state for India, will entertain Nasrulla Khan, the second son of the Amir of Afghanistan, who has just arrived in England. Later Mr. Fowler will conduct Nasrulla Khan to the first grand reception at the foreign office which takes place the same evening.

BEAT HER RECORD.

The Cunarder Lucania Beats Her Daily Average Speed Record.

QUEENSTOWN, May 24.—The Cunarder line steamship Lucania, Captain McKay, from New York, May 18, has beaten her daily average speed record. She made the trip in 5 days, 11 hours and 41 minutes, being 3 hours and 3 minutes behind her own eastward record of 5 days, 8 hours and 38 minutes, made in September, 1894; but on the trip just completed the Lucania made an average daily speed of 22.01 knots per hour. Her best previous daily speed record was 21.89 knots, made in June, 1894. The Lucania, according to her log, passed Sandy Hook lightship at 2:24 p. m. on Saturday last, May 18, arrived at Queenstown at 6:40 a. m. to-day. Her daily runs were 431, 405, 524, 522, 517 and 308.

While the present trip of the Lucania is three hours and three minutes behind her eastern record, she has lowered her own eastern record over the long southern course. When the Lucania made her record of five days, 8 hours and 38 minutes, she covered only 2,810 knots, while on the voyage just completed she steamed 2,897 knots.
